ECCV 2026 WORKSHOP / MALMÖ, SWEDEN

# Safe & Defensive Autonomous Driving

A full-day workshop on building autonomous systems that anticipate latent hazards, reason under uncertainty, and act with trustworthy, defensive behavior.

VENUE Malmö, Sweden | DATES September 8–12, 2026 | TRACK Non-archival

WORKSHOP SCOPE

## Three questions we tackle

**01**

What **dangers** arise in driving scenes — especially the **latent hazards** that are hard to observe?

**02**

How can vehicles **learn defensive driving** under **uncertainty** and rare, long-tail situations?

**03**

How do we **evaluate** defensive behavior **beyond trajectory-centric** benchmarks?

CALL FOR PAPERS

## Submit your research

We welcome original work across the full safety stack of autonomous driving. Topics of interest include, but are not limited to:

- Latent hazard detection & anticipation
- Long-tail & safety-critical scenario generation
- Robustness, OOD & distribution shift
- Metrics & benchmarks for defensive behavior
- Defensive policy learning under uncertainty
- Risk-aware prediction & planning
- Closed-loop & simulation-based evaluation
- Multi-agent & V2X interaction safety

SUBMISSION

**Non-archival**, ECCV format, via **OpenReview**. Short papers **≤ 7 pages**, long papers **≤ 14 pages**. Each paper receives **2–3 expert reviews**.

OUTCOMES

Accepted papers are presented in **poster sessions**. **3 spotlight** talks and **2 Best Paper Awards** are selected.

KEY DATES

Paper Submission DEADLINE

**July 15, 2026**

| | |
|---|---|
| Author Notification | Aug 8, 2026 |
| Camera Ready | Aug 15, 2026 |

SUBMIT

**on OpenReview**

Scan the code or visit **sdad.cc** for the full CFP.

INVITED SPEAKERS

**Andreas Geiger**
Univ. of Tübingen

**Dragomir Anguelov**
Waymo

**Jun Gao**
Univ. of Michigan

**Chong Ruan**
DeepRoute.Ai

**Boyi Li**
UC Berkeley · NVIDIA

ORGANIZERS

**Qifeng Chen**
HKUST

**Alexandre Alahi**
EPFL

**Bo Li**
UIUC

**Yiyi Liao**
Zhejiang Univ.

**Li Erran Li**
AWS AI

**Tongyi Cao**
DeepRoute.Ai

STUDENT CO-ORGANIZERS Zhili Chen (HKUST) · Qiang Wen (DeepRoute.Ai) · Jiaqi Tang (HKUST) · I Chieh Chen (HKUST)
